Subject Secondary trails

Good morning Damon, hope all is well with you and family. This letter is about my efforts to get a secondary trail to my camp approved. The three previous trails that I submitted to Pedro were all declined. The new trail that I want to submit contains none of the reasons that caused the other trails to be denied. It starts at the Burns Lake access and goes north approximately four and one half miles, to a point just north of the intersection of the Burns Lake and Windmill primary trails. The trail proceeds east from there for approximately one and one quarter miles, to my camp. I don't see how there could be a problem with a secondary trail this short, especially one that does not cross any open prairies, and there is already an approved secondary trail going into this same area originating at trail head 10. Accessing this camp is very, very important to me as it is a place that holds a vast amount of pleasant memories of good times shared there with my family and friends for over forty years, and at my age I will not be able to enjoy that for too many more years! Frank Denniger suggested that I send this letter to you and Bob, as you would be able to forward it to the ORV committee members and the PEPC website.

I would deeply appreciate any help that you and/or Bob may be able to give me concerning this matter. Thank you Sir, and have a great day!  
Hunters care for special places! Tony Brock
